

*Let's dive in!*

Unlocking the Doors  
to a Better Dementia  
Care Experience

# The Key to Success

Every situation with dementia is unique, and the key to the solutions must be equally unique. Together we will explore how each of these services can help you on your journey and create an individualized plan for support.

## » COACHING

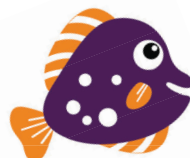

With coaching, you learn positive approaches through modeled behavior, while having opportunities to apply what you have learned.

## » CONSULTING & SUPPORT

With the right combination and guidance, you will find that we can better support people with dementia throughout the disease. Whether you are looking to understand the disease and progression, or needing support navigating situations, we help build your toolbox for success.

## » TRAINING & COMMUNITY EDUCATION

Interactive workshops are designed to help solve challenging situations when approaching someone living with dementia. We offer a vast variety of topics and can be tailored to meet your audience's needs in content and length.

## THE FISH APPROACH<sup>®</sup>

People living with dementia are like a fish out of water.

**The water is their reality.**

People with healthy brains are on land.

We need to learn how to get in the water to provide care rather than pulling them out of their reality.

**Contact me to learn more.**

I have learned so much from your kind, patient teaching and understanding... you are truly a compassionate, hard-working advocate for all those living with dementia.

~ Annie

## MEET THE CONSULTANT | Sheri Fairman

I have a Master of Social Work Degree, Certifications as Trainer and Consultant with Teepa Snow's Positive Approach to Care and works as a PAC™ Mentor. With over a decade of experience, both personal and professional, working with the aging population and their care partners, I have a solid understanding of the challenges and joys of dementia care. I am here to help you on your journey to learn, understand, and apply a positive approach to dementia care.
