

Older Adults & Medication Deprescribing

Join us for a discussion centered on reducing medications in those that are aging.

Friday, May 12th, 2023
1PM - 2:30PM

Neville Public Museum

210 Museum Pl, Green By, WI 54303

Deprescribing in the Elderly -
As we age, some medications may become unnecessary, harmful, or no longer useful. Learn about reasons when and why we may want to reduce or eliminate over-the-counter or prescription medications.

This discussion will allow time for questions and opinions.

Medical professionals, doctors, nurses, care providers, family, friends, and older adults are encouraged to attend.

About the Presenter

Fred Walbrun MD -
Retired Physician (2021), but remains as an educator for several organizations, including the Brain Center of Green Bay. He co-founded Wisconsin Alzheimer Institute and the Alzheimer Association of Wisconsin.

Graduating from Georgetown University in 1976, he was trained and certified in Internal Medicine in 1979, then Board Certified in Geriatric Medicine in 1988. He was a preceptor for the Medical College of Wisconsin, multiple nurse practitioner programs, and helped train fellows at UW-Madison. Dr. Walbrun started a private practice in 1979, and worked at Prevea Clinic the last 10 years. As a leading, and majority of the time, only geriatrician in Brown County, he had a large nursing home practice, and cared mainly for patients with dementia.
