

Our Aging Brain: What is typical and when to be concerned?

Wednesday, June 21, 2023
1:30 - 3:00 PM

As we age we should expect changes to occur in our body and brain.

What is typical and when should we be concerned? If thinking and memory problems arise, can it be something reversible? YES!

Learn about the causes of these symptoms, what you can do to improve them, and how to know if it's something more serious.

About the presenter:

Sheri Fairman has a Master's degree in Social work with over 10 years of experience working with the elderly and their care partners. She is a Certified Independent Trainer and Consultant with Teepa Snow's Positive Approach to Care and works as a Mentor on her team. Fairman is owner of Dementia Care Solutions and provides consulting, coaching, training, and presentations specific to quality dementia care.
