

# Progression of Dementia: What Skills Remain

*Community Education Workshop*

**FREE! Open  
to the public**

*Often the progression of dementia is measured in stages and focuses on what skills are lost. This doesn't give us any tools to help provide care and support. There is a better way to understand the progression of the disease-by looking at what skills remain. With Teepa Snow's GEMS State Model, attendees will gain deeper insight into the experience of the person with brain changes and shift their support accordingly.*

**Wednesday, September 4 • 1 p.m.**

Village Hall at Felician Village, 1635 S. 21st Street, Manitowoc

**RSVP's appreciated, but not required: (920) 684-7171, ext. 329  
or [fvmarketing@felicianvillage.org](mailto:fvmarketing@felicianvillage.org)**

Presented by Audrey E. Linn, MS ADC  
*Dementia Care Solutions, LLC*

Sponsored by the Felician Sisters • [felicianvillage.org](http://felicianvillage.org)
