

# THE FISH APPROACH TO DEMENTIA CARE

WITH SHERI FAIRMAN

## WHAT YOU'LL LEARN

Introducing The Fish Approach Model, a fresh perspective on dementia care that prioritizes effective communication. This approach shifts the focus from viewing "behaviors" as challenges to recognizing them as meaningful forms of communication. By understanding how our responses can either create obstacles or provide support, we can better meet the needs of those living with dementia. So, put away your fishing poles. It's time to dive in and swim with the current of connection and understanding.

## INSTRUCTOR

Sheri Fairman holds a Master's degree in Social Work and is a Certified Independent Champion Teacher, Trainer, and Advanced Consultant with Teepa Snow's Positive Approach to Care.
