

CURATIVE - EAST SIDE DEMENTIA TRAINING

OPEN TO
ALL!

BRAIN CHANGES IMPACT PEOPLE'S EVERYDAY EXPERIENCES AND HOW OUR APPROACH IMPACTS THIS EXPERIENCE.

CHAMPION COURSE 1 + 2

MONDAY, AUG 17, 2026 FROM 12-4PM

In these workshops, we will explore the parts of the brain, understand what each part is responsible for, and practice the skills needed to successfully approach and provide care.

Learners will:

- Develop an awareness about how brain changes impact everyday experiences
- Explore how our approach impacts these experiences
- Build skills to specifically meet the needs of the person we provide care for.
- Practice Teepa Snow's HUH™ approach to care to learn how we can better support people to walk, eat, brush their teeth, and more.

CHAMPION COURSE 3+4

WEDNESDAY, AUG 19, 2026 FROM 12-4PM

In these workshops, we will explore Teepa Snow's GEMS™ State Model to shift our approach and care specific to the GEM™ State of the person living with dementia.

Learners will:

- Pair this approach with skill building opportunities
- Discover the importance of dynamic assessment
- Be supported in identifying each person's GEM™ state
